About Me

TabTwice is a full-time Twitch streamer and multi-platform content creator from Indianapolis, Indiana USA.

This dream started in 2018 when I converted my closet into an office and hit that go live button with a budget camera and a low quality microphone. Over that time we have created a community that is relaxed, inclusive, and safe for all who tune in. I attempt to play simulation, RPG, and sandbox games while mostly hanging out with chat and having important discussions like "does pineapple belong on pizza". The answer is yes, yes it does.
